

Price list for 800G hybrid fiber optic cable for data center interconnection

Experience the future of data connectivity with COMNEN's 800G OSFP Active Optical Cable, expertly engineered to meet the demands of high-performance networking and data center environments.

OSFP-800G-ACC is a passive copper cable with integrated equalizer circuits, capable of extending lengths to 3 meters, 4 meters, and 5 meters while maintaining low latency and low power ...

The 800G MPO connector ribbon cable represents the cutting edge of fiber optic connectivity, designed to support ultra-high bandwidth applications in AI-driven, hyperscale, and next-generation data centers.

Discover the cost of fiber optic cable in this pricing guide. Learn material prices, installation factors, and what impacts total project costs overall.

The 800G OSFP Active Optical Cable is designed for 800 Gigabit Ethernet links over OM4 multimode fiber. This cable is compliant with IEEE 802.3bs, OSFP Rev 5.0, SFF-8679, and CMIS Rev 4.0.

The GIGALIGHT 800G OSFP/OSFP HYBRID pluggable active optical cable(AOC) assemblies support 800G Ethernet and InfiniBand NDR data rates.

800G NDR InfiniBand transceivers & cables: Ultra-high-speed interconnects for HPC.

Transform your data center with 800Gbps optical transceivers, active optical cables, active copper cables, direct attached copper cables, fiber patch cables, and patch panels designed for the 800G ...

The 800G DAC cables deliver cost-effective, ultra-low-latency direct-attach connectivity for high-density data centers and HPC environments. Compatible with common 800G form factors (OSFP and QSFP ...

JTOPTICS's 800G Active Optical Cable delivers high-performance and optimized connectivity solutions for datacentre interconnections at speeds up to 800Gb/s over distances of up to 50 meters.
