

Price of Dual-Core Temperature Measuring Optical Cable Connector

DTSX measures temperature distribution over the length of an optical fiber cable using the fiber itself as the sensing element and it is ideal for temperature monitoring over long distances and wide areas.

Our Products Temperature Transmitters CSA/UL/Marine certified fiber optic temperature transmitters for industrial applications.

This wireless thermocouple device comes with two K-Type connectors, which can be used to connect higher temperature range thermocouples if needed. This sensor has in built hot and cold junction to ...

High-Definition Distributed Temperature Sensing Multipoint Temperature Measurement Long-Range Distributed Temperature Sensing with OptaSense Strain sensors based on fiber Bragg gratings (FBGs) deliver accurate and stable strain measurements that can be multiplexed and distributed over a large area using a single optical fiber sensor network. 1. Combine multiple point sensors on single fiber channel 2. Based on fiber Bragg gratings (FBGs) 3. Versatile and rugged temperature sensor options... See more on lunainc DirectIndustry Temperature sensing cable - All industrial manufacturers Find your temperature sensing cable easily amongst the 4 products from the leading brands (Brugg, Hot Disk, TEMPESENS, ...) on DirectIndustry, the industry ...

Industrial machines often require a consistent temperature measurement to ensure production quality and understand machine condition. ifm developed a robust temperature sensor product line to fit the ...

The Dual Thermocouple Connectors product offering from EvoSensors provides both a Dual Standard and Miniature Size Thermocouple Connectors. The design provides 2 thermocouple circuits in a ...

The DiTeSt-Dual provides 4 channels with fast and accurate strain and temperature measurements up to 60 km in BOTDA mode and up to 45km with single-end mirror-less measurement. Multiple fibers ...

Find your temperature sensing cable easily amongst the 4 products from the leading brands (Brugg, Hot Disk, TEMPESENS, ...) on DirectIndustry, the industry specialist for your professional purchases.

High-definition temperature sensing based on the natural Rayleigh backscatter in optical fiber delivers a virtually continuous line of temperature measurements with sub-millimeter spatial resolution. Learn ...

Choose the Philips Intellivue MMS X2 temperature adapter for a dependable and easy-to-install replacement solution. Ensure your medical equipment continues to perform at its best with this high ...
