

Price of High-Temperature Resistant Optical Backplane Connectors for Cameroon s Private Power Grid

This product is a series of high-temperature resistant fiber optic connectors (optical fiber connectors) that can withstand up to 200°C, produced by DCYS.

TE Connectivity Ruggedized Optical Backplane Interconnects specifications, datasheets, buying information, and inventory are available at TTI.

As a leading supplier of advanced fiber optic components, Molex has an extensive product offering that includes a full range of optical solutions from connectors, adapters and cables to backplanes and ...

High temperature resistant connector uses special fiber with high temperature survivable coating and special epoxy, which makes it resistant for 260°C and reflowable as well. Connector is a device for ...

The VITA 66 standard for optics gives you the choice of MT array connectors, ARINC 801 termini, or expanded beam (EB) contacts using a common module. With an aerospace pedigree, ...

Suitable for harsh environments and designed for demanding applications where reliability and high performance are required, our cost-effective optical connectors are adapted to the specific ...

SENKO" Optical Backplane connector with AirMT(TM) technology offers excellent optical performance and stability. Blind mating technology connects up to 144 fibers using 24F MT ferrules.

DIN 41612 High Temperature (HT) connectors meet the fire safety standards required in Industrial (Transportation, Power) market. DIN is most suitable for hazardous and high-risk product platforms ...

The LightCONEX" optical interconnect family includes plug-in and backplane module connectors that have been developed to be compliant with the forthcoming VITA 66.5 standard and in alignment with ...

Shop DigiKey"s large in-stock selection of Backplane Connector Housings. View inventory, pricing and order now for same day shipping!
