

Purchase a 4U switch with energy efficiency

Discover our range of energy-efficient Ethernet switches at Staples. Enhance your network performance while reducing energy consumption with our reliable and eco-friendly options.

Search Newegg for 4 port ethernet switch. Get fast shipping and top-rated customer service.

The LiteWave Series also supports energy-efficient technology, helping you save power and money. Power consumption automatically adjusts according to the link status and cable length, allowing you ...

Featuring 100GbE connectivity, four AC power supplies, an x86 CPU, standard ...

Yes, many 16-port switches include energy-saving features like IEEE 802.3az (Energy Efficient Ethernet), which reduces power consumption during low traffic. These features help you ...

The NC8400-4TH switch supports a maximum of 128x 40G/100G, or 64x 40/100G with 16x 400G high-density ports through flexible line cards combinations of NC8400-32C and NC8400-16CD. It's optimal ...

The LiteWave Series also supports energy-efficient technology, helping you save power and money. Power consumption automatically adjusts according to the link ...

ENERGY STAR makes it easy to find efficient network equipment to meet your needs. Using our ENERGY STAR Product Finder, you can select the right network equipment for your business.

By breaking hardware-software lock-in and enabling multi-vendor interoperability, ...

Whether upgrading your office infrastructure or enhancing your home network, high performance ethernet switches provide the flexibility and scalability needed to keep your connections running ...

When buying large network equipment, like routers or switches, it is recommended to buy products that have the right hardware support to make use of power management algorithms for reduced energy ...

Featuring 100GbE connectivity, four AC power supplies, an x86 CPU, standard depth, and P2C airflow, this switch is ideal for scalability and optimized cooling in high-volume network environments. ...

By breaking hardware-software lock-in and enabling multi-vendor interoperability, it empowers free NOS selection while delivering automated, scalable deployment--driving agility, cost efficiency, and faster ...
