

# Russian imported QSFP-DD optical module SFP

Bynet supplies reliable, multi-vendor compatible optical transceivers for data center, telecom & enterprise networks. From 1G SFP to 400G/800G/1.6T QSFP-DD/OSFP, our modules are rigorously ...

The QSFP-DD transceiver is a new optical module comparable to the current QSFP but adds an extra row of contacts for an eight-lane electrical interface. All QSFP-DD-based transceivers ...

QSFP & QSFP28 MODULE Custom 400G / 800G QSFP-DD & OSFP MODULE Enterprise & Access Optics Engineered for enterprise networks and access layer applications. Our 1G to 2.5G SFP ...

Systems designed with QSFP-DD ports are backwards compatible to support existing QSFP+, QSFP28, and QSFP56 modules. This provides flexibility for network designs and migrations to next-generation ...

High-density 800G OSFP and QSFP-DD transceivers support InfiniBand and RoCE, enabling 100m to 2km transmission via MMF and SMF.

QSFP-DD ports are designed to be backward compatible with QSFP28 modules. This allows you to upgrade your spine switches to 400G/800G ...

QSFP-DD is a new module and cage/connector system similar to current QSFP, but with an additional row of contacts providing for an eight lane electrical interface. It is being developed by the QSFP-DD ...

There are three interface standards for the 100G interface: DSFP, SFP-DD and SFP112. These standards have in common is the small mechanical size. Having the same size with SFP series ...

By partnering with tier-1 optical component manufacturers, we ensure every module meets the highest industry standards. Each transceiver undergoes rigorous testing and comes supported by a Limited ...

FS provides an expanding portfolio of 400G OSFP/QSFP112/QSFP-DD solutions featuring high-performance, high-bandwidth, and backward compatibility. The 400G transceiver modules are ideal ...

The QSFP-DD optical transceiver is designed to be compact and dense, allowing it to fit into existing network systems. It has a width of about 18.3mm and can accommodate dual-density ...
