

ST Fiber Optic Attenuator Order

Our ST attenuators are manufactured and tested according to the industrial standards and they are 100% compatible to use with equipment and components from other suppliers.

We stock attenuators compatible with connector types including ST, SC, SC/APC, FC, FC/APC, LC, LC/APC, and MU. Values range from 1 dB to 25 dB, with custom options available upon request.

Fiber Optic ST Attenuator, Plug In Style to test the dynamic range and linearity of photo detectors. Great buy at Cables Plus USA today!

HeyOptics offers High-quality 5dB Attenuator Fiber Optic ST (Singlemode, Male to Female, UPC, 1~25dB) at direct-factory Price & Life-time Warranty.

ST fiber optic attenuators are capable of withstanding over 1W of high power light exposure for extended periods of time, making them suitable for high-power applications. We supply the ST fiber optic ...

Single-mode ST/UPC Male to ST/UPC Female, fixed attenuator for singlemode applications to prevent over saturating an optical ...

Manufactured with a metal-ion doped fiber, these attenuators can handle over 1W of high power light exposure for an extended period of time. Available in 3, 5, 10, 15, 20, or 25 dB models featuring ...

Single-mode ST/UPC Male to ST/UPC Female, fixed attenuator for singlemode applications to prevent over saturating an optical receiver when optical power is too high. By using a fiber optic attenuator ...

ST fiber attenuators are used to reduce the power level of an optical signal of a fiber optic cable by up to 30dB. A fiber attenuator is commonly used in fiber-optic communications to the power level of a fiber ...

This ST/UPC plug-in fixed attenuator provides 10dB optical attenuation for single-mode fiber systems. Built with a zirconia ceramic ferrule, UPC polish, and robust connector, it guarantees stable insertion ...

When a cable end is inserted into the female end, the remaining male end can be connected to the equipment where the cable would otherwise connect directly, but providing the desired signal ...
