

Single-mode single-fiber transceiver models

For horizontal shorter-length run, the Fastcabling modules are available with single mode fiber to suit your fiber connectivity applications. It can transmit data up to 20 KM with 1.25 Gigabit network speed.

Learn what a single mode SFP transceiver is, how it works, key specs, common types, and real-world use cases for long-distance fiber optic networks today.

Fiber Savvy has you covered when it comes to quality Single Mode Fiber Transceivers. Single Mode Fiber Optic Transceivers are essential components in high-speed, long-distance data transfer networks.

Confused by SFP vs SFP+? Read the definitive 2026 guide on SFP modules. We explain Single Mode vs Multimode, DDM diagnostics, and how to choose the right transceiver for Cisco, Juniper, and more.

Discover our diverse selection of singlemode transceiver modules, which have been specially developed for long-lasting, reliable and powerful fibre optic communication.

Discover high-performance single mode SFP modules for your network. Compatible with major brands like Cisco, Ubiquiti, and more.

TRENDnet SFP Single-Mode LC Module 4-Pack, TEG-MGBS10/4, For Single Mode Fiber, Distances up to 10km (6.2 Miles), Gigabit SFP, Supports Up to 1.25Gbps, IEEE 802.3z Gigabit Ethernet, Lifetime ...

A practical, field-tested comparison of multimode vs single mode fiber optics, guiding transceiver selection with real-world constraints, specs, and deployment tips.

The 1000BASE-ZX SFP operates on standard single-mode fiber-optic link spans of up to approximately 70 km in length. The SFP provides an optical link budget of 21 dB, but the precise link ...

Improve safety, signal integrity, and reliability by using two optical fibers instead of wire to transfer bidirectional serial data using single-mode optical fiber.
