

## Solution DAC High-Speed Cable QSFP28

Mellanox's direct attach copper (DAC) passive cable assemblies are high speed, cost-effective alternatives to fiber optics in 100Gb/s Ethernet applications. Mellanox QSFP28 passive copper cable ...

Supports current 10 Gbps Ethernet, 14 Gbps (FDR) InfiniBand and 16 Gbps Fibre Channel applications.

Yes, using Direct Attach Copper (DAC) cables. This is an integrated assembly of two QSFP28 modules and a copper cable, typically limited to 5 meters. DACs are cost-effective for short ...

Siemon QSFP28 100G passive Direct Attach Copper Cable assemblies are designed to exceed industry standard performance offering a cost-effective, low latency, low-power option for high-speed data ...

Design for the speed you need, today and tomorrow with TE Connectivity's portfolio of QSFP connectors including QSFP+, zQSFP, QSFP28 and QSFP56 interconnects.

The 100G QSFP28 Direct Attach Copper (DAC) cable family delivers a fast, affordable, and efficient solution for short-distance interconnects in today's data centers and enterprise networks.

[High Speed Connectivity] 100G QSFP28 DAC cable offers rapid data transmission, ensuring seamless integration in demanding data center environments. [Cost Effective Solution] ...

By incorporating QSFP28 Passive DAC Cable Assemblies into the physical infrastructure, businesses can achieve 100 Gigabit performance port-to-port without additional signal processing or conversion, ...

At the center of this transition is QSFP28, a compact, high-performance optical transceiver form factor designed specifically for 100-gigabit data rates. QSFP28 (Quad Small Form-Factor Pluggable 28) ...

FS QSFP28 DAC cable, passive/active DAC from 0.5m to 10m and FS QSFP28 AOC from 1m to 100m cable, cost-effective alternative for 100G Ethernet short links between QSFP+ ports of switches.
