

Flush-fitting ventilated and non-ventilated ducts, complete with accessories for the support, conduction and mechanical protection of machine-side cables and automated systems.

It is the cables that are being supported by the cable trays that limit where a cable tray wiring system may be installed. The only limitation on the cable tray is that it can't be used in hoistways or where ...

This comprehensive guide delves into everything you need to know about cable trays, including the different types, sizing considerations, and the top cable tray manufacturers and suppliers in the industry.

As a less-expensive alternative to conduit, a stronger alternative than wire basket, and superior to generic tray, Snap Track saves on labor and reduces total installed costs.

No other cable tray or cable bus manufacturer can match the experience, engineering proficiency or manufacturing capabilities of MP Husky. Our team of knowledgeable and experienced engineers ...

INTERFLEX was founded in 1967 with a clear objective: innovation in cable protection and conduction systems.

ABB designs and manufactures cable tray systems, including perforated tray, cable ladder, channel tray and strut (metal framing), directly from production facilities in Canada and Saudi Arabia.

Need technical support or a quote? We're here to help.

For ease of installation and accessibility, lay cable and hose in trays instead of pulling it through conduit or raceway. These tray systems allow excellent ventilation and prevent sagging while routing.

Our wire and cable ducts are manufactured under UL and ISO 9001:2000-certified standards. IBOCO's wire duct is easy to install, uninstall, and is manufactured with rigid self-extinguishing PVC plastic.
