

# Spectrometer Laboratory

With our spectrometers, data can be collected and analyzed using our LabQuest 2, LabQuest 3, or free Vernier Spectral Analysis software, which allows users to spend less time learning different ...

Whether you're building a custom solution or seeking a turnkey system, our spectrometers support UV-VIS spectroscopy, NIR spectroscopy, fluorescence, and Raman applications, making them ideal for ...

Lab Expo supply highly sensitive and portable spectrometers for chemical analysis, environmental monitoring, and material identification using light wavelengths.

Browse a comprehensive selection of "Spectroscopy and Spectrophotometers" from a wide variety of Material Testing and Physical Testing available on ColeParmer . Shop now!

The one thing all laboratories need to be successful is results they feel confident in. Since 1936, millions of samples worldwide have been analyzed using LECO laboratory instruments for elemental ...

We offer a selection of UV/VIS spectrophotometers and luminometers that provide precise measurements for a variety of research applications, from analyzing light absorption in materials to ...

Online shopping for Spectrometers - Spectrometry from a great selection at Industrial & Scientific Store.

We are a manufacturer of laboratory spectrometers for precise spectral analysis and chemical identification. Ideal for research in environmental science, pharmaceuticals, chemistry, and material ...

Spectrometers that measure the interaction of infrared radiation with matter by absorption, emission, or reflection, using IR spectra to identify chemical substances or functional groups in solids, liquids, or ...

Lab spectrometers are powerful tools used by scientists and researchers to analyze the properties of various materials. These instruments can measure the wavelengths and intensities of ...
