

Swedish Fiber Optic Temperature Sensor Company

Key products include fluorescent fiber optic temperature sensors, GIS switchgear temperature monitors, cable joint thermal detectors, and transformer winding temperature sensors.

Our technology ensures precise and reliable production of Fiber Bragg Gratings (FBG), helping maintain safety and efficiency in even the most challenging environments. Fiber optic sensors are critical for ...

Fiber-optic temperature sensors for industrial applications involving harsh environments such as high voltage, electromagnetic interferences, microwaves, and Radio-Frequency energy

Detailed info and reviews on 6 top Sensors companies and startups in Sweden in 2026. Get the latest updates on their products, jobs, funding, investors, founders and more.

SICK is one of the world's leading producers of sensors and sensor solutions for industrial automation applications

Leading developer of fiber optic temperature sensing and partial discharge monitoring solutions for switchgear, data centers, energy, and life sciences, delivering critical insights for electrical ...

Visit our lab in Stockholm and see cutting-edge fiber optic technologies come to life. Discover how our tools and expertise shape the future of photonics, drive innovation, and redefine what's possible in ...

Discover all relevant Optical Sensor Manufacturers in Sweden, including Axis Communications AB and Neophone

Vi erbjuder standardtemperaturgivare, men kan också hjälpa dig med kundpassade konstruktioner eller en komplett mätlösning. Fiberoptiska temperaturgivare utnyttjar egenskaperna hos optiska fibrer ...
