

Thailand Industrial-Grade Optical Switch 400G

The 400G switch market is experiencing substantial growth driven by the escalating demand for high-speed data transmission, cloud computing, and data center expansion.

FS 400G data center switches offer high speeds and port densities to meet the network deployment requirements of various scenarios and the evolving requirements of next-generation data center ...

A compact 1U 400G switch built for AI clusters, storage fabrics, and high-speed aggregation, featuring four 400G QSFP56-DD ports, dual 10 Gigabit Ethernet, and RouterOS v7.

It supports various configurations and can be deployed as a spine switch for 100/400 GbE interconnects. The switch comes with the Open Network Install Environment (ONIE), compatible with various ...

Choose from new price-performance options on merchant silicon in our 400G and 800G switches and routers to reach new benchmarks of performance and functionality.

For the most demanding environments the 400G routing and switching platforms provide flexibility and choice for large scale cloud, leaf and spine, routing transformation and hyperscale IO intensive ...

In response to the explosive growth of data, the 400G switch aims to meet the network demands of hyperscale data centers and cloud computing service provider. Senao 400G high-speed network ...

Experience breakthrough switch performance that delivers high capacity, speed, and efficiency. A new modular chassis design supports high-port-density 400G expansion modules. Get a high ...

Shop high-speed optical transceivers from Unitekfiber. We offer 100% compatible 40G, 100G, and 400G QSFP-DD modules for data centers. Expert technical support & wholesale pricing.

Discover the top 10 optical transceiver manufacturers advancing 400G and 800G modules powering hyperscale data centers and next-generation networking infrastructure.
