

UK Sampling Fiber Bragg Grating Supplier

We are a leading developer and solutions provider of high quality Fiber Bragg Grating sensors and FBG Filters.

Using our advanced FBG writing technologies with holographic phase mask and ebeam phase mask, we are able to write many different types of fiber Bragg grating such as the following listed products.

We specialize in custom fabrication of fiber optical gratings (FBG) across wavelengths from 400 nm to 2000 nm, tailored to precise customer specifications.

Our Fiber Bragg Gratings Proximion is the leading supplier of advanced Fiber Bragg Gratings (FBGs) based products with a capability to manufacture straight, chirped or tilted FBGs with a customized ...

Contact Smart Fibres today with your enquiries, our dedicated team is always here to help answer any questions you have. Located in Bracknell, Greater London, UK we have been pioneering the ...

Fiber Bragg grating strain sensors possess various key characteristics that enhance their performance and suitability across multiple industrial and technical applications. FBG strain sensors are highly ...

If you are looking for a supplier for your FBG grating requirement, we can help! Depending on your application, type of requirement etc., you can choose the ideal supplier from the ...

We supply Fibre Bragg Grating (FBG) Strain Sensors in our full fibre optic product range. Visit for data sheets and a quote.

We design and fabricate passive and active periodic fibre devices, including fibre Bragg gratings, for a variety of applications in photonics.

This fiber Bragg gratings buying guide provides technical background, comparison of major types, selection criteria, and an overview of suppliers.
