

Ultra-high pressure complete set of equipment

UHP (Ultra High Pressure) equipment includes hoses, fittings, complete hose assemblies, adapters and accessories designed for working pressure in the range of about 700 to 4000 bar.

We offer the widest range of high-pressure and UHP water jet pump units, blasting equipment, and accessories, all built to the highest standards of quality and reliability.

From electric and diesel-powered jetting units to ultra high pressure water blasting systems and reverse osmosis solutions, Combijet offers reliable equipment for every industrial need.

Ultra High-Pressure Flowline Equipment Complete line of 20,000-psi flowline products including pup joints, swivel joints, plug valves, check valves, union fittings, and pressure relief valves.

Ultra High Pressure Valves, Fittings, and Tubing deliver unrivaled performance, even under extreme conditions. Their robust design ensures operational safety and efficiency, making them ideal for ...

From electric and diesel-powered jetting units to ultra high pressure water blasting systems and reverse osmosis solutions, Combijet offers reliable equipment for ...

CEJN offers a complete kit for professional high-pressure hydraulic equipment usage including pump, couplings, hose kit and gauge, all to get your job quickly started in a safe and efficient way.

HiP packaged hydraulic power systems using our new high performance T-Series pumps are an excellent method to deliver high pressure hydraulic power to your field location. These turn-key ...

We specialize in high pressure fittings and adapters ranging from Medium Pressure, High Pressure, Type M or Reverse High Pressure, NPT and Metric Fittings. Our Highly Polished Fittings and ...

An Ultra-High Pressure (UHP) water blasting system can be used for your hardest commercial and industrial stripping/cleaning jobs. With UHP water systems, there is low impact on the environment ...
