

Wholesale Single-Mode Fiber Optic Attenuators

Thorlabs has a wide variety of single mode (SM), polarization-maintaining (PM), or multimode (MM) fixed and variable optical attenuators (VOAs). We offer SM and PM electronic VOAs that provide control of ...

Useful in all networks including WDM and EDFA system applications with high-power laser sources, these single-mode and multimode fiber attenuators are manufactured using doped fiber, provide ...

Shop DigiKey's large in-stock selection of Fiber Optic Attenuators. View inventory, pricing and order now for same day shipping!

Fiber Optic Attenuator Single mode Fixed Type LC SC FC ST Fiber optic attenuator, also called optical attenuator, is a passive device used to reduce the power level of an optical signal.

Suitable for both 1310nm and 1550nm operation. DB Attenuation levels available from Fiber Cables Direct include 5dB, 10dB, 15dB and 20dB, call for other dB level options. Attenuators are typically ...

Attenuators are essential in fiber optic communication systems, especially single-mode networks. OTRANS manufactures high-precision fiber optic attenuators with low insertion loss variation and ...

Types of attenuators include in-line male to female, in-line cable, adjustable air gap, bulkhead, variable, collimator variable optical, variable air gap and dope fiberattenuators. Available for single-mode and ...

Fibertronics, Inc. provides an extensive selection of fiber optic attenuators tailored to meet diverse needs. These attenuators are suitable for use in single mode 9/125, multimode 50/125, and ...

FS fixed and variable fiber optic attenuators with leading attenuating fibers guarantee consistent and stable fiber attenuation (0~60dB) in WDM transmission.

A fiber optic attenuator is used to reduce the power of the laser in a fiber link. CableWholesale offers attenuators in bulk or singles at everyday low prices.

Wholesale Single-Mode Fiber Optic Attenuators
