Wholesale of 6-core low insertion loss splitters imported from Canada

The PLC Splitter splits one or two optical signals into multiple output ports and features low insertion loss, high uniformity and low polarization dependent loss.

This optic splitter has low excess loss, excellent directivity and low polarization sensitivity. It is highly cost effective, and the splitting ratio can be customized to the desired one.

Their PLC splitters are favored for low insertion loss and durability, making them perfect for FTTH networks and data centers. They also offer customizable solutions for specialized needs, ...

Get price quotes for Beam Splitters and Combiners. Search, find, compare and shop for Beam Splitters and Combiners on FindLight. Contact suppliers directly with one click.

For maximum network robustness and minimum maintenance requirements, these splitters are designed to operate over a wide temperature range suitable for outside plant installation.

All PLC products comply with Telcordia GR-1209-CORE & Telcordia GR-1221-CORE standards. We provide 2-year quality assurance, accept custom orders, offer free samples with fast delivery.

We offer a full line of fiber optic couplers and splitters supporting SM, MM, PM, large core, and double-clad fibers across 300-2000 nm, with power handling up to 100 W and operating temperatures up to ...

CommScope offers a portfolio of bare and connectorized splitters/couplers in a wide range of styles and split ratios, and splitter modules for inside plant (ISP) and outside plant (OSP) applications that help ...

Find wholesale low insertion loss splitter, telecom equipment, hardware, and other parts at Alibaba . Buy telecom parts from international suppliers.

Beam Splitters - Buying Guide & Suppliers Use this beam splitters buying guide to compare major types, define selection criteria, and find suppliers: ? Technical background information - buyer ...
