

# XL-21 Explosion-proof Distribution Box

Reliable XL-21 AC low-voltage distribution boxes for industrial and infrastructure use. Certified manufacturer offering OEM service and global delivery.

XL-21 low-voltage power distribution switchgear is suitable for power distribution in power plants and industrial and mining enterprises in three-phase four-wire systems with AC voltage of 500 volts and ...

As a power supply system with AC 50Hz-60Hz, rated working voltage 380V, rated working current up to 630A, and breaking capacity up to 15kA, it provides power conversion, distribution and control for ...

It is primarily used for power distribution purposes in power plants, industrial and mining enterprises, high-rise buildings, and other occasions. The XL-21 low-voltage power distribution cabinet is securely ...

The XL-21 cabinet's modular design and explosion-proof features make it ideal for industrial automation, energy management, or hazardous facility upgrades. With customizable materials and certifications, ...

XL-21 type low voltage power panel has flexible distribution scheme, convenient combination, good practical performance, new structure and etc.

This product is explosion-proof, separated explosion-proof main chamber and wiring chamber. It is formed by bending and welding high-quality SS304 stainless steel plate.

The main distribution box adopts self-design of new components, compact structure, beautiful appearance, easy maintenance, a variety of wiring options for users to choose, it is an ideal ...

It serves as the central hub for receiving and distributing electrical energy in low-voltage systems up to 380V. Designed for power plants, substations, industrial enterprises, and commercial buildings, the ...

The XL-21 cabinet's modular design and explosion-proof features make it ideal for industrial automation, energy management, or hazardous facility upgrades. With ...

The XL-21 Power Distribution Box is used for power distribution, conversion, transmission, control, and on-site operations in low-voltage distribution systems. It is widely applied in power plants, ...
