

Yemen fiber optic cable landed

Just weeks after a warning about potential Houthi threats to subsea cables in the Red Sea, at least one fiber-optic line has been severed at a position off the coast of Yemen, and damage...

Undersea cable cuts in the Red Sea disrupted internet access in parts of Asia and the Middle East, experts said Sunday, though it wasn't immediately clear what caused the incident.

The Red Sea cable cut disrupted the internet across India, Pakistan, and the Middle East. These vital undersea cables are laid and maintained by private companies and international consortiums.

In early 2024, Yemen's internationally recognized government in exile alleged that the Houthis planned to attack undersea cables in the Red Sea. Several were cut, possibly by a ship attacked by the ...

Undersea cable cuts in the Red Sea disrupted internet access in parts of Asia and the Middle East, experts said Sunday, though it wasn't immediately ...

In early 2024, Yemen's internationally recognized government, which is battling the Houthis, alleged that the rebels planned to attack undersea cables in the Red Sea.

Following alerts regarding the potential threat from Houthi rebels to underwater cables in the Red Sea, fiber-optic cable off Yemen has been cut.

In the current international situation, Yemen's Houthi warning to the U.S. and U.K. has attracted widespread global attention. The Houthis have threatened that they will not hesitate to cut ...

In early 2024, Yemen's government-in-exile alleged that the Houthis planned to attack undersea cables in the Red Sea. Several were cut, but the Houthis denied being responsible. ...

Multiple reports say several subsea fiber-optic cables in the Red Sea and southern Red Sea near Yemen were severed or damaged, disrupting internet traffic across parts of the Middle ...
